Your plan takes effect 5 days after your initial payment. That is the time we need to get you into our system and validate your account.

You will receive your plan documents in the mail. If you lose them, no problem: we can still access your information using the phone number you used to sign up.

Your One-Year Agreement

Membership is a one-year agreement:

- If you paid annually and have never used the service, you can cancel and be refunded for the remaining months - no questions asked.
- Once a service has been used, the contract remains in force for the full year, and any remaining payments are still owed.
- If you pay monthly, your plan continues month to month for the one-year term.
